

Klikseal

Klikseal is a revolutionary two-component grommet with cable anchorage – something completely new to the market. Through innovation and advanced production technology, we have designed a product that has many of the advantages found in a cable gland.

Apart from the cable anchorage, **Klikseal** is compact, self-adjusting to its surrounding wall thickness (patented), click-fixed in place (patented), has a membrane seal, is waterproof, requires very little effort to install with its collapsible outer membrane (patented), and saves up to 90% of your time.

The installation of a **Klikseal** requires no tools and has a "pushout" membrane that is a permanent seal until penetrated by a cable or pipe. Each size of **Klikseal** can be used with an exceptional range of cable and pipe diameters. An M25 can be used for cables and pipes ranging from 4 mm to 14 mm. Because of its compact design, the **Klikseal** only extends 5,7 mm outside the housing on which it is mounted.
